

VANGUARD NETWORK ALERT

22nd October 2021

Dear Valued Client,

Vanguard is experiencing a material network outage that is affecting majority of our offices globally.

This outage does not affect South Africa, and we are fully operational.

However, if you are experiencing delays with e-mail correspondence, please direct any queries and/or bookings to the local offices, our teams will gladly assist.

It is expected that the network will be restored over the weekend.

Kind Regards

**Vanguard Logistics Management Team
South Africa**
