Safari service rotation – Far East Asia to Southern Africa Port Omissions

To our Valued Customers,

The global supply chain bottlenecks continue to impact the port congestions on the Far East Asia to South Africa network. As a result, we are currently experiencing massive delays on vessels that are due to arrive in Mauritius & South Africa.

To the benefit of our customers and to improve the reliability of the service into Port Louis and Durban, Maersk has decided to cease calling Yantian & Hong Kong on the South Bound rotation. This will be effective for voyages 142S to 146S and will continue temporarily until further notice.

If you have further questions, we encourage you to visit www.maersk.com or liaise with your local Maersk customer service representative.

We want to thank you for your business and look forward to continuously serving your global transportation needs.

Best regards,

Maersk
